

We are a vibrant center of opportunity where the French culture, nature's abundance, and an international bond, make Madawaska a great place to live, work, and visit.

Grand Plan Madawaska is a community and economic development strategy for the Town of Madawaska, Maine. It is a call to action for transformative change that points to a simple idea: **to create a great place to live.**

During the planning process, hundreds of people of all ages shared their perspectives, ideas, concerns, and desires for a stronger future for our town. Their insight helped to shape Grand Plan Madawaska.

The first of its kind for the Madawaska region, this strategy provides the opportunity for unprecedented private, public, and nonprofit sector collaboration. It also sets a course for increased connection with communities in the St. John Valley and our Canadian neighbors.

FOUR STRATEGIC GOALS

1. **Strong Culture and Place**
2. **Vibrant and Attractive Community**
3. **Diverse and Thriving Local Economy**
4. **Efficient and Exceptional Government**

Though this strategic plan is about shaping the next decade, its 12 strategies, 44 actions, and implementation road map focus primarily on the next five years (2018-2022).

The hope is that Grand Plan Madawaska inspires, galvanizes, and guides everyone – residents, town staff, elected officials, businesses, nonprofits, and institutions – to move forward together. **We're all part of shaping a strong and vibrant future for Madawaska.**
